

Session	Scan sheet	Position	Policy	Comment	Response
				This is not clear as to where any masts might or might not be placed	Indeed - we are not seeking a specific location but indicating a willingness should one be mooted. The full planning process would then consider the merits of each application
Friday	Scan 0013	Top left			
Friday	Scan 0013	Middle left	Bus 4	Where will the visitors park? Suggest some out-of-town with a subtle signed Heritage Trail	Wherever it is legal to park.
Friday	Scan 0013	Middle left (cont)		Any plan to increase tourism should also be taking into account parking issues and traffic	Excellent suggestion - car parking comments passed to M&T
Friday	Scan 0013	Bottom left		How about turning part of the Town Hall into a tourist Info Centre staffed by volunteers	Good point The Town Hall is the property of Deddington Charity Estates, the upstairs is let out on a commercial basis but the suggestion will be passed on to them.
Friday	Scan 0013	Top right	Bus 4	Great care should be taken re supporting home extensions to ensure that they will blend in as if they had always been there	
Friday	Scan 0013	Middle right			Passed to the housing group
Friday	Scan 0013	Bottom right	Bus 1 - 4	All policies seem sensible and well thought through	Thank you
Friday	Scan 0014	Top left		Whilst communication to locals is welcome the plans are not specific enough for anyone to make a valued judgement. Again work is subjective	Passed to the steering group
Friday	Scan 0014	Top right		Communication sites should be more specific about where. [unreadable] Certainly far too subjective.	Continuation of previous post-it notes, passed to the steering group
Friday	Scan 0014	Middle left	Bus 4	More places for parking needed	Noted and comment shared with M&T
Saturday	Scan 0032	Top left	Bus 1	Royal British Legion needs help and support	Thank you, passed to the Parish Council
Saturday	Scan 0032	Middle left	Bus 1	More businesses mean more cars etc in Market Place	Yes and more trade for the supporting businesses such as the Co-Op etc
Saturday	Scan 0032	Bottom left		More development will result in more population. Slower journeys to work => economic inefficiencies slower commuting journey. This inhibits the local economy.	Hence the home-working thoughts
Saturday	Scan 0032	Top right	Bus 1 a)	How can a business continue if it is not commercially viable? Needs to be rewritten	Noted, policy Buss1 amended accordingly
Saturday	Scan 0032	Middle right	Bus 1	Or supporting housing sites that would support local businesses	Comment passed to housing

Saturday	Scan 0032	Bottom right		This will provide a loophole for extending (?) how do you enforce (?) "business use"? Parking is a real issue in some areas of the village and "business" generate more traffic.	We feel this is a matter for the due planning process
Saturday	Scan 0033	Top left		The NP team are made up of DDW members who target businesses continuing to run. How can they be objective to the needs of business if this is the case? Barn in Earls Lane	This topic group has 2 from DDW, 2 independants and one from the PC
Saturday	Scan 0033	Middle left		Nice hair dresser near to the church next to foodies	Shall pass this on the Steve Miller
Saturday	Scan 0033	Bottom left		I support all these policies	Thank you
Saturday	Scan 0033	Top right		No recognition or apparent interest in agriculture and the importance of allowing farmers to manage their land and maintain the landscape	At an early stage we discussed whether farming should be separated out from all other businesses and we decided to consider farming in with the other businesses
Saturday	Scan 0033	Middle right		I agree with these policies as they are clearly based on the village survey. F Davies	Thank you
Saturday	Scan 0033	Bottom right		Well thought out policies - reflect the survey (unlike some of the other areas shown here today)	Thank you
Saturday	Scan 0034	Top left		Visitor Parking where?	Wherever it is legal to park.
Saturday	Scan 0034	Middle left	Bus 4	If visitors are to be welcomed where do they park?	Wherever it is legal to park.
Saturday	Scan 0034	Bottom left	Bus 4	More local employment needed to stop commuting traffic etc	Agreed - home working policy
Saturday	Scan 0034	Top right		Good policies appear to reflect the questionnaire clearly	Thank you
Saturday	Scan 0034	Middle right	Bus 3	Offices are created in garages pushing cars out onto roads - policy should preclude this	Interesting point - shared with housing group
Saturday	Scan 0034	Bottom right	Bus 4	Holly Tree should be negotiated for and turned into car park for school and relieve market square	I don't believe it is currently for sale and I think the original gift precludes this. Good thought and worth discussing with the charity that runs the site.
Saturday	Scan 0035	Top left	Bus 1 - 4	I support all these policies as they are in accordance with the village survey results	Thank you
Saturday	Scan 0035	Middle left		It would have proved helpful to have all the emerging policies prior to the event	It was the decision of the Steering Group not to do that but they are now on the website.
Saturday	Scan 0035	Top right		I agree to these, they are reflective of the questionnaire	Thank you

Visitor parking is a priority

The village copes with Farmers Market days and as the closure of Philip Allen updates has made some parking spaces available in the Market Square. Discuss this with M&T.

Saturday Scan 0035 Middle right

Visitor parking	5
I like these policies	7
