

Session	Scan Sheet	Position	Policy No. where written	Comment
Friday	Scan 0015	Top left	Comm 1	Groups etc even Parish council to reflect actual age demographic of the community. Is there any young people on it?
Friday	Scan 0015	Middle left	Comm 2	Windmill Centre is well used but does badly need a face lift!
Friday	Scan 0015	Bottom left	Comm 4	Not only downsizers but housing for 1st time buyers and young families
Friday	Scan 0015	Top right	Comm 2	Yes the Windmill Centre is Very Much in need of facelift
Friday	Scan 0015	Middle right	Comm 3	Agree - all current play equipment needs updating
Friday	Scan 0015	Bottom right	Comm 4	Isn't this part of "Housing"?
Friday	Scan 0016	Top left	Comm 6	A developer would have no difficulty in using this policy to support an application on any site in Deddington. This policy should not go forward
Friday	Scan 0016	Middle left	Comm 6	WHERE?!! Centre already accessible therefore seems totally irrelevant
Friday	Scan 0016	Bottom left	Comm 6	The village centre is accessible to all points of the compass; further development (implied) would crowd the existing well knit centre
Friday	Scan 0016	Top right	Comm 7	This is another policy that would give developers cart-blanch and should not go forward
Friday	Scan 0016	Middle right	Comm 6	<u>Village Centre</u> "Should <u>NOT</u> be encouraged! No available parking for one
Friday	Scan 0016	Bottom right	Comm 7	Hard to tell why this isn't "Housing"
Friday	Scan 0017	Top left	Comm 7	"Extra care housing"- This could be interpreted by any developer as a charter to infil
Friday	Scan 0017	Middle left	Comm 7	We do not want developers to have carte blanche to build anywhere.
Friday	Scan 0017	Bottom left	Comm 9	Very much agree with the open spaces (NON development or our village will no longer be a village community
Friday	Scan 0017	Top right	Comm 7	Ageing? We seem to have a good balance of young & ageing. We should have good pavements for prams & wheel chairs
Friday	Scan 0017	Middle right	Comm 7	Looking at the Primary School and number of young families query <u>ageing</u> population and again space limited
Friday	Scan 0017	Bottom right		Existing open spaces should not be built o FULL STOP. No ifs or buts. We have very little open space in the village
Friday	Scan 0018	Top left	Comm 6 and 7	Maybe too broadly defined - could be exploited by developers, although agree with the principles)
Friday	Scan 0018	Bottom left	Comm 6 and 7	I think that it is important that the village 'centre' eg by the Castle grounds does not get too congested. You can still access the centre from the outskirts of the village even if you are an older member of the village
Friday	Scan 0018	Top right		? Allotments
Friday	Scan 0018	Bottom right	Comm 6 and 7	Almost any development is within "accessible" reach of the village centre. Define accessible or add "subject to all other criteria being observed"
Saturday	Scan 0043	Top left		Footpath along Earls Lane to connect with footpath on Clifton Road

Saturday	Scan 0043	Middle left		Modernise Windmill Centre and Park too
Saturday	Scan 0043	Bottom Left	Comm 4	integrated approach' define how to do this
Saturday	Scan 0043	Top right	Comm 5	replace 'should be' with 'must'
Saturday	Scan 0043	Middle right		Agree with these with emphasis on extreme necessity to improve the Windmill Centre
Saturday	Scan 0043	Bottom right	Comm 3	Need much better park facilities for older children - V. Imp (eg Steeple Aston)
Saturday	Scan 0044	Top left		We have been coming to the Windmill centre for my daughter's ballet lessons for 7 years. We greatly value the centre, however it is very outdated and could do with being refurbished to a standard fit for the 21st century! Really make this centre fir for the village.
Saturday	Scan 0044	Middle left		Castle ground should be used more for children in the village. Playground - Football sport
Saturday	Scan 0044	Bottom Left		I <u>DO NOT</u> support these policies as they Do Not conform to the village survey
Saturday	Scan 0044	Top right	Comm 3	Update facilities in Clifton
Saturday	Scan 0044	Middle right		Developments can never promote 'social inclusion'. That is down to people not buildings!!
Saturday	Scan 0044	Bottom right	Comm 4	What about some "downsizing" housing of Hudson Street - behind the Unicorn?
Saturday	Scan 0045	Top left	Comm 2	Church is one of the key village facilities not just the Windmill
Saturday	Scan 0045	Middle left	Comm 1	Maintaining central shopping/commercial area - Mkt Place- critical to social interaction
Saturday	Scan 0045	Bottom Left		Upgrading of the Windmill Centre is a necessity
Saturday	Scan 0045	Top right	Comm 2	Windmill Centre needs updating/referb - essential - as per survey
Saturday	Scan 0045	Middle right	Comm 3	British Legion! Are there any plans to link this more to the community for the benefit of all?
Saturday	Scan 0045	Bottom right	Comm 2	Windmill Centre Complete refurb + upgrade internally and externally.
Saturday	Scan 0046	Top left		Improved recreational spaces are greatly needed - other smaller villages offer superior facilities
Saturday	Scan 0046	Middle left		I <u>do not</u> agree with all the accessibility statements - Deddington is a compact village and the housing policies are a better reflection of where housing should go
Saturday	Scan 0046	Bottom Left		more town meet up's and more celebrations
Saturday	Scan 0046	Top right		Maintenance of Cliton Footpath now we have it!
Saturday	Scan 0046	Middle right		I do not think building near the town is required
Saturday	Scan 0046	Bottom right	Comm 6	Only very limited development should be agreed
Saturday	Scan 0047	Top left	Comm 6	This will be used by developers against us!! We should bear in mind the survey and the housing policies - Not Comm 6
Saturday	Scan 0047	Middle left	Comm 9	I object to this
Saturday	Scan 0047	Bottom Left	Comm 6	Centre of Town already very crowded

Saturday	Scan 0047	Top right		Keep the village centre alive - but parking needs addressing
Saturday	Scan 0047	Middle right	Comm 6	Absolutely key! continue Market Place and environs as commercial centre - great deal of social interaction happens in Co-Op!
Saturday	Scan 0047	Bottom right		Deddington centre should be protected. No additional building should ever be allowed. Rather pass on the protection of the xxxxxx centre (<i>unable to read the word</i>)
Saturday	Scan 0048	Top left		I'd like the Castle grounds to be kept as it is
Saturday	Scan 0048	Middle left		We must preserve the character of the village not spoil the open spaces
Saturday	Scan 0048	Bottom Left		The Castle Grounds should be kept as a passive recreation area - no more facilities are needed
Saturday	Scan 0048	Top right		To what extent will even more people looking for a place to park or standing in line at the Co-Op make us more "sustainable"?
Saturday	Scan 0048	Middle right	Comm 6	Do we really need facilities to be in heart of village
Saturday	Scan 0048	Bottom right		I don't think we should encourage developers to build near the town centre
Saturday	Scan 0049	Top left	Comm 7	Deddington is a compact village with easy and fairly flat access from all directions. Older persons are encouraged to walk and exercise
Saturday	Scan 0049	Middle left		Consideration should be given to the identification of buildings that are assets of community value
Saturday	Scan 0049	Bottom Left		The castle grounds should be protected at all cost. The grounds are a unique asset to be treasured by all of Deddington. Green space (accessible green space) is crucial to the physical and mental well being of villagers
Saturday	Scan 0049	Top right	Comm 7	More smaller housing for elderly to downsize needed
Saturday	Scan 0049	Middle right	Comm 6, 7 and 9	<u>Comm 6 and 7</u> should be REJECTED. They may be seen as loopholes for potential developers. <u>Comm 9</u> There are never enough open spaces and certainly no surplus in Deddington. REJECT
Saturday	Scan 0049	Bottom right		Open space should be maintained.
Saturday	Scan 0049b	Top left		So many will enjoy the opportunity to walk to the shops, church, pubs and school
Saturday	Scan 0050	Top left	Comm 9	Need to have a variety of open spaces with different uses. Keep Castle Grounds as it is
Saturday	Scan 0050	Middle left	Comm 9	Open spaces are very important
Saturday	Scan 0050	Bottom left		Open space is <u>never</u> surplus to requirements. Green space is vital for the physical and mental well being of society
Saturday	Scan 0050	Top right	Comm 9	<u>No</u> destruction of any open spaces. Appear to be ignoring comments from previous surveys.
Saturday	Scan 0050	Middle right	Comm 9	Existing open spaces should never be built on.
Saturday	Scan 0051	Top left	Comm 9	Yes, open space and maintaining it are very important
Saturday	Scan 0051	Middle left		These do not reflect the village survey. The housing policies should override these
Saturday	Scan 0051	Bottom left	Comm 9	Open spaces should be maintained at all costs
Saturday	Scan 0051	Top right	Comm 9	Most important are open spaces

Saturday	Scan 0051	Middle right	Comm 6	This does not represent the housing policies. It provides developers with open invitations
Saturday	Scan 0051	Bottom right	All Comm Policies	These policies are not supported by the survey
Saturday	Scan 0052	Top left		Do not build on the Castle grounds - an area closed of for a small playground- but grounds should be left as is
Saturday	Scan 0052	Middle left	Comm 9	Existing open spaces should be retained - not built on at all
Saturday	Scan 0052	Bottom left		Not in open spaces nor historic Fields as in Earls Lane
Saturday	Scan 0052	Top right	Comm 9	Replace 'should' with 'must'
Saturday	Scan 0052	Middle right	Comm 4 and 7	Support inclusion of downsize/ageing requirements in plans - only 52 but see the requirements in others
Saturday	Scan 0052	Bottom right	Comm 6	I do not agree with these thasy do not reflect the survey. IT PROVIDES CART BLANCH FOR DEVELOPERS
Saturday	Scan 0053	Top left		Do these policies here reflect the survey. I think <u>NOT</u>
Saturday	Scan 0053	Middle left	Comm 9	Open spaces should be maintained as such - open! Open spaces are not <u>surplus</u> to reqts. Not as per survey
Saturday	Scan 0053	Bottom left	Comm 9	WHAT THE.....?
Saturday	Scan 0053	Top right		Existing open spaces such as fields should <u>not</u> be built on but retained as an asset its our right, London has parks, we have fields
Saturday	Scan 0053	Middle right	Comm 9	This does not reflect what was proposed in the survey. I object. Open spaces should be maintained in the
Saturday	Scan 0053	Bottom right	Comm 6	These policies do not reflect the comments in the survey
Saturday	Scan 0054	Top left		This is not we agreed with - it's important to keep green spaces in the village (<i>the last word is not very clear</i>)
Saturday	Scan 0054	Top Right	Comm 6	I do not agree with policy Comm 6 as it is not based on the village survey. The great majority of those who filled in the survey form do not favour housing estates in the heart of our beautiful village. The word access tells xx x xxxx word for just that. This makes it easier for developers who will quote it back to us. All Deddington is accessible and well within one and a half mile daily walk recommended by all health experts. (<i>some words not legible</i>)

Community Group Response
Agree but need volunteers to come forward
