

Housing

HOU1

Well, what about the plan for 85 houses on the A4260 from the crossroads towards Bambury on the left?

These policies are attempting to exclude development except on the very edges of the village. This will not meet the accessibility requirements of the elderly.

Bungalows not in keeping & not suitable for young couples / families. We want to encourage younger residents to move to area!

What do you mean by 'manageable'?
- Is this specific?

HOU 3

Not sustainable;
Younger people want bigger gardens.
Encourage home grown produce without the need for allotments.

Should only permit use of local stone.
No red brick.
