

COMMUNITY

7 "Extra care housing"

This could be interpreted by any developer as a charter to infill.

COMM 7

Ageing? We seem to have a good balance of young & ageing. We should have good pavements for prams & wheel chairs.

COMM 7

We do not want developers to have carte blanche to build anywhere.

7 Looking at the Primary School and numbers of young families queueing ageing population ~~and~~ and again space limited

Very much agree with the open spaces (non development) or our village will no longer be a village community

Existing open spaces should not be built on FULL STOP. No ifs or buts. We have very little open space in the village
