

# HOUSING 9

HOU 6.  
The current gov.  
definition of  
affordable housing  
is 80% of market price  
or rent. This is still  
too expensive in  
Daddy. Need  
social housing.

Affordability  
should include  
lifetime operating  
costs, which requires  
much more rigorous  
energy design criteria.

Please provide a  
map showing  
potential sites

Please review your  
executive summary  
(vii)

vii No  
development  
at all costs  
on green field  
sites

Given that the survey  
has indicated a large  
demand for downsizing,  
surely such houses  
should be in accessible  
locations, of which  
there are a number  
within the village.
