

# HOUSING 6

① Young people  
hoping to stay in  
the village.

② Old people (80+)  
who will not wish  
to maintain their  
homes for too many  
years

HOUSE 2 (a) - wrong.  
Development close to  
centre discourages  
car use. This pushes  
development away to  
its edge. Better to  
develop flats late  
fields than on outskirts  
- it would encourage  
walking in the village.

Being able to  
downsize is a problem  
as is the first home  
for anyone who has lived  
here all their lives

We have loads of  
building styles  
in the village. Why  
are we restricting  
ourselves to brick?  
Would love to ~~see~~  
see eco builds  
HOU 4

Houses where  
carers can  
live / attend. HOU 3

women controlled  
accommodation

DEED NEED  
FOR MORE  
HOMES FOR  
"DOWN SIZERS"  
RELEASING LARGE  
FAMILY HOMES.
