

HOUSING 9/10

Would like to see  
a god pleasing on  
the eye bricks  
having experienced  
some built house  
in the village, gets  
damaged by the frost

Windfall element  
should not be  
restricted to 10  
dwellings, if  
areas of land are  
suitable for more  
numbers

Trying to propose an<sup>HOU1</sup>  
allocation based on  
the response to one  
highly subjective  
question is unsound  
& naive. Where is  
the evidence regarding  
housing demand and  
site capacity?

Agree  
HOU 3?
