I'd like the
Castle Grounds
to be kept
as it is

To what extent will
even more people looking
for a place to park or
standing in line at
the co-op make us
more "sustainable"?

We must preserve
the character of
the village
not spoil the
open areas.

Do we really
need facilities
to be in heart
of village

The Castle Grounds
should be kept as a
passive recreation
area — no more
facilities are needed

I don't think
we should
encourage
developers to
build near
the town center
