

# Environment 4

ENV 4

Switch off some  
lights after  
mid-night?

Environment

Agree with  
most policies,  
ENV 1 & 2 in  
particular

Why not make  
initial statement  
apply to all  
utilities & then  
discuss specific  
such as food H<sub>2</sub>O  
& H<sub>2</sub>O pressure

ENV 2

Current infrastructure  
doesn't support  
current population  
adequately. More  
development will  
lead to more  
population !!,  
simple.

ENV 2

The water  
pressure has  
always be  
appalling

(53 years of  
experience)

I support the  
environment -  
keep Dodington  
RURAL.
