

Deddington Neighbourhood Plan potential site choice results

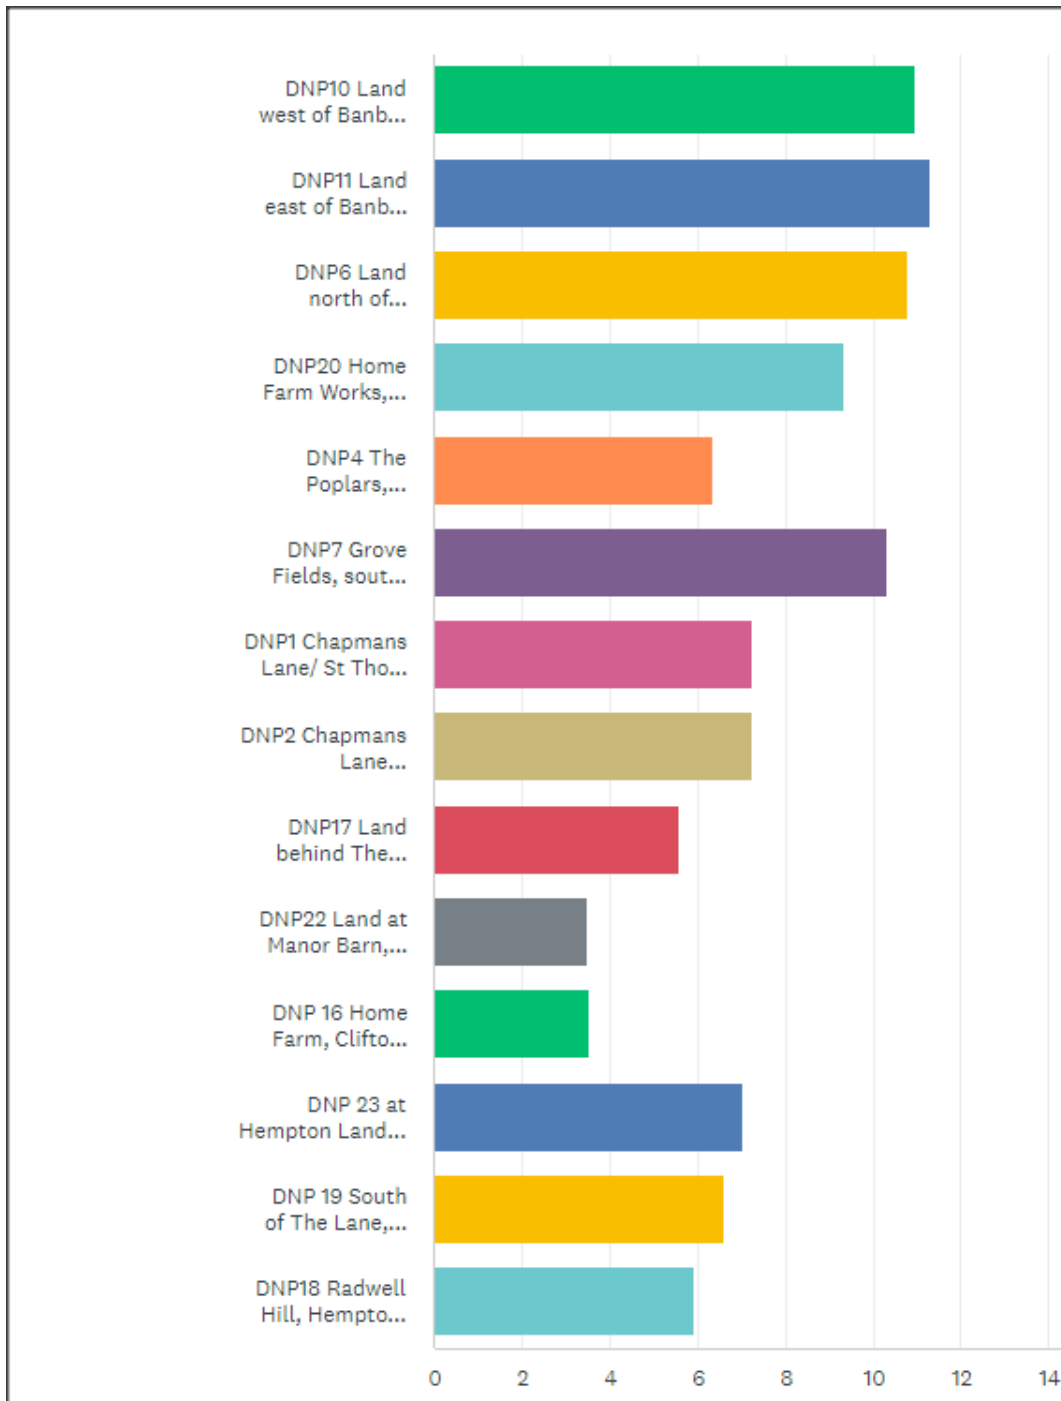

Please select your choice of sites for new housing development.

The target number of homes is 100-150. One of the two or three largest sites or a selection of smaller sites, possibly including one in Hempton or Clifton, would fulfil the housing needs requirement. But we would like you to rank all the sites in your order of preference, please mark 1 for your first choice, down to 14. Bear in mind that CDC will only endorse a final allocation of all or a majority of sites in Deddington village, since that is in their view the most sustainable location for new development. Add any comments below.

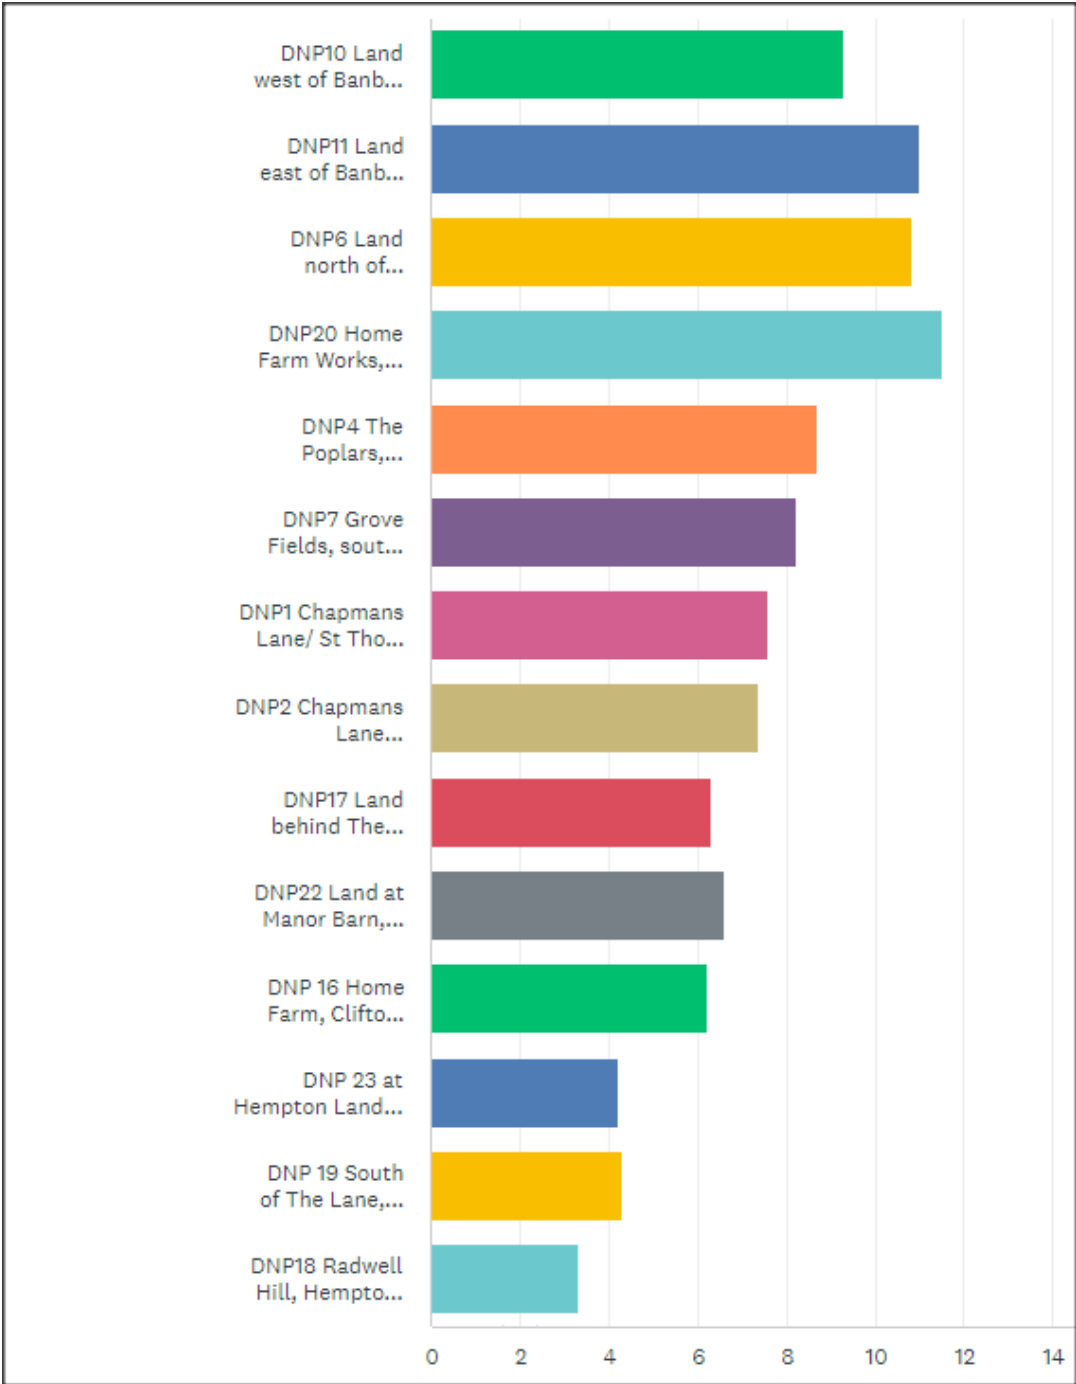

Choices of Deddington village residents only

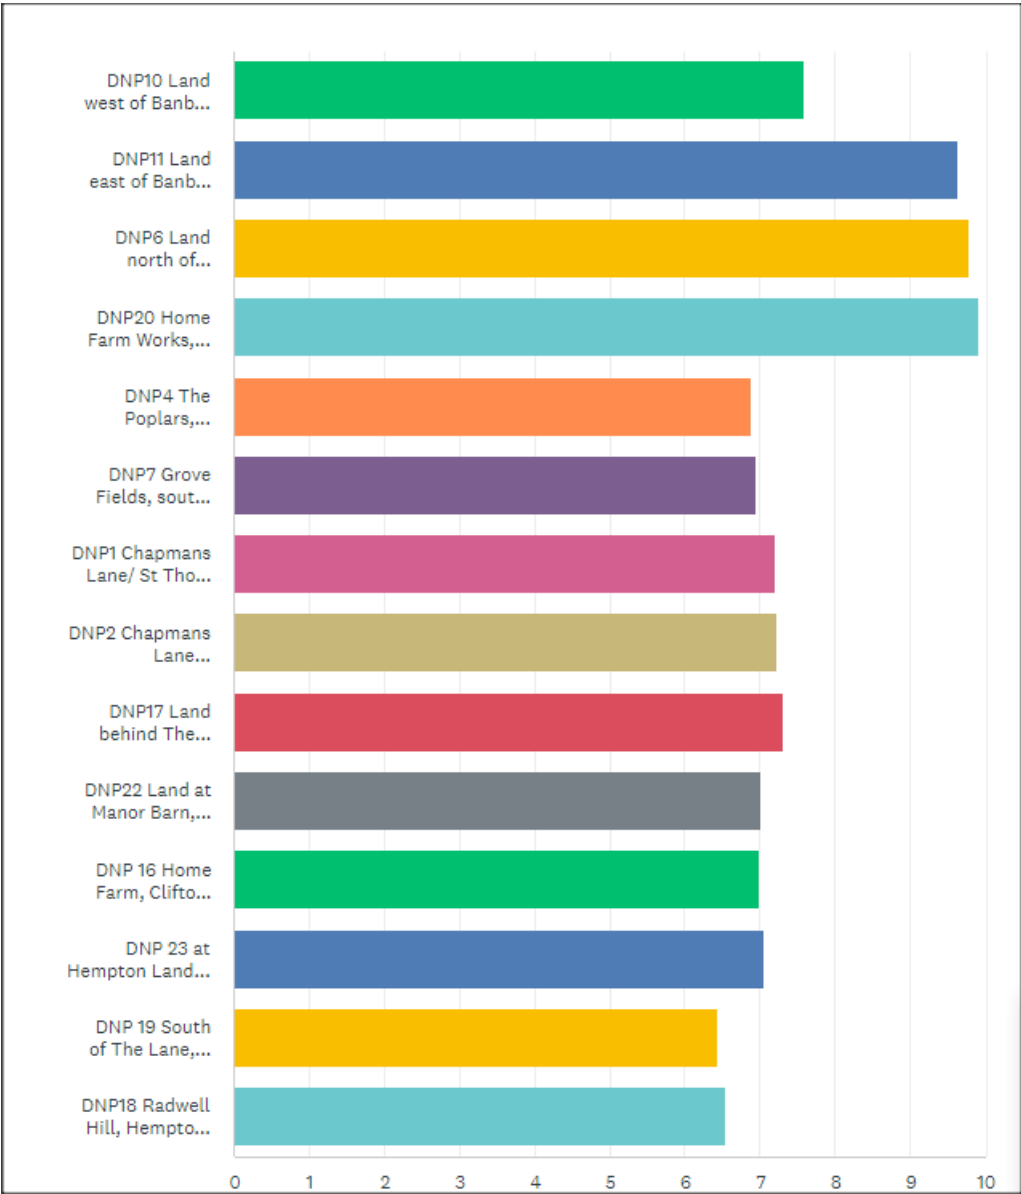

Choices of Clifton residents only

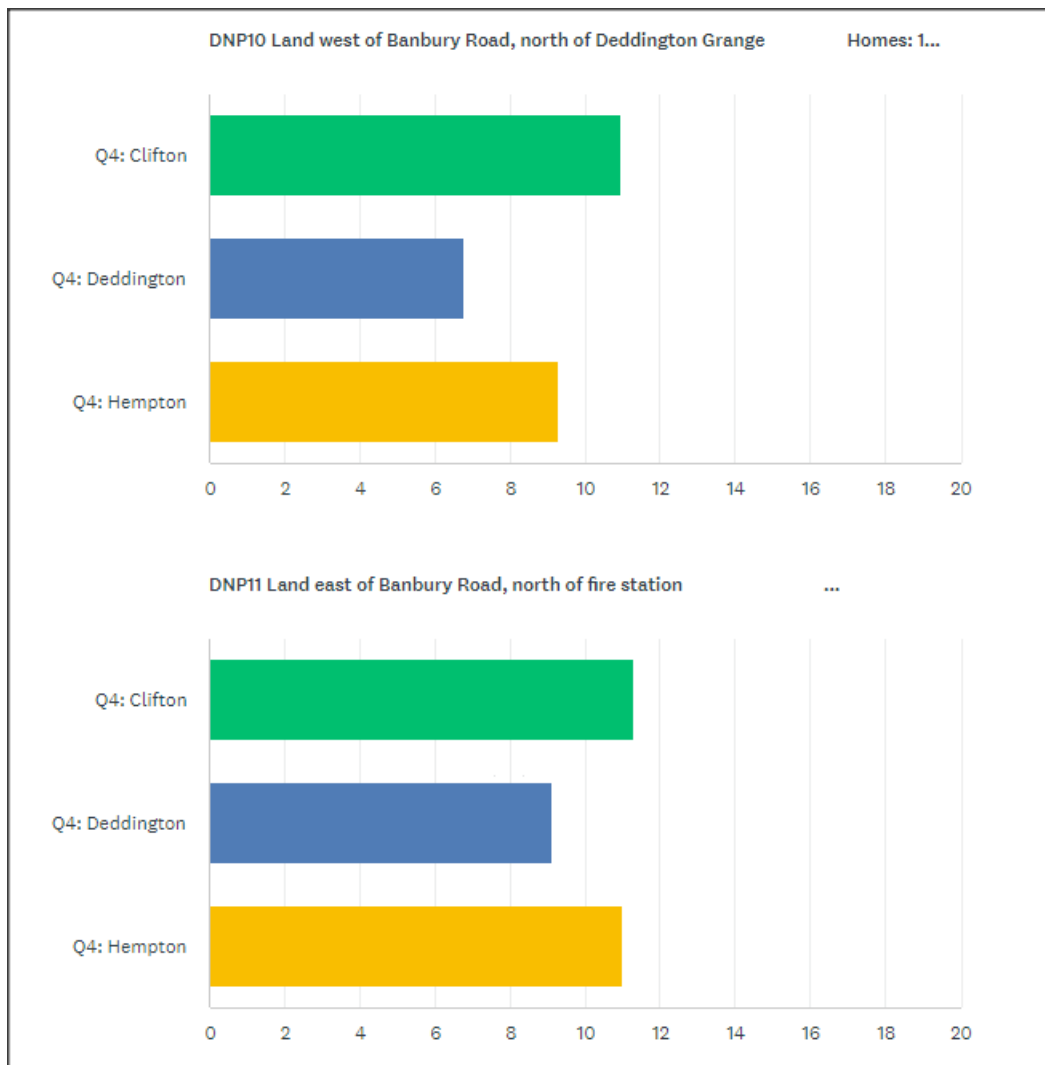

The choices of Hempton residents only

Combined choices of the 3 villages of Deddington, Clifton and Hempton

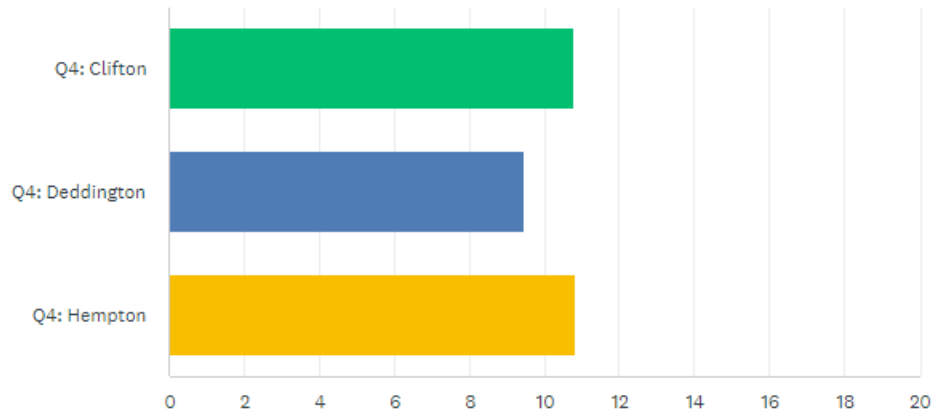

Comparisons of choices from the three separate villages for each potential site

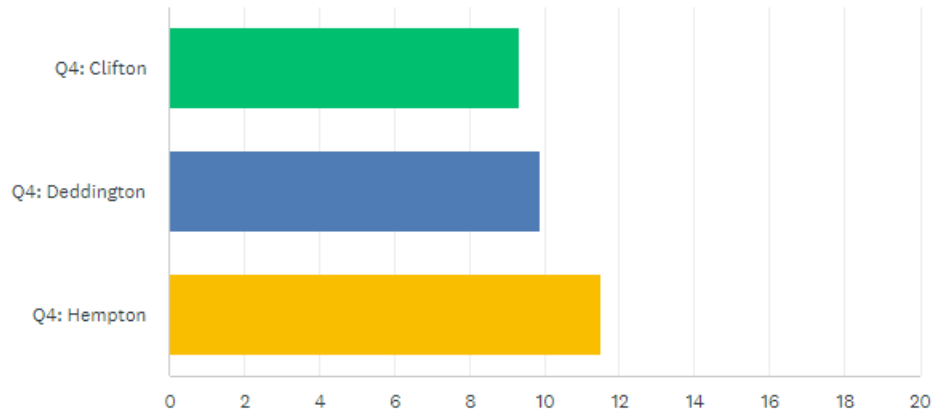

DNP6 Land north of Wimborn Close

...

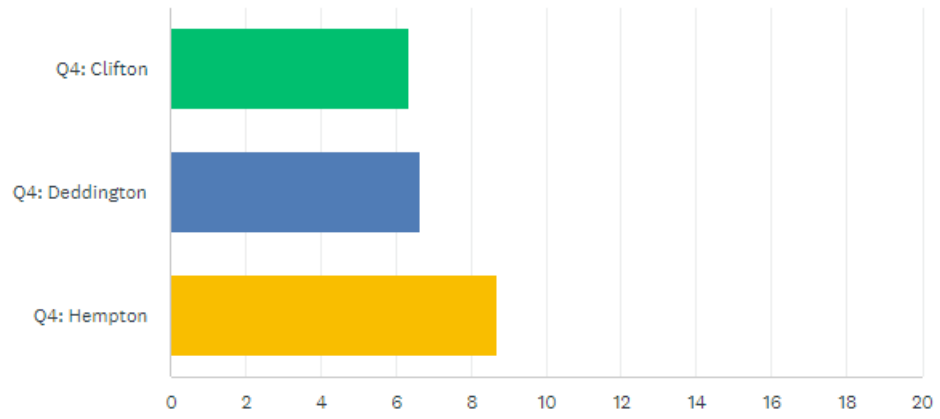

DNP20 Home Farm Works, Clifton Road, Deddington

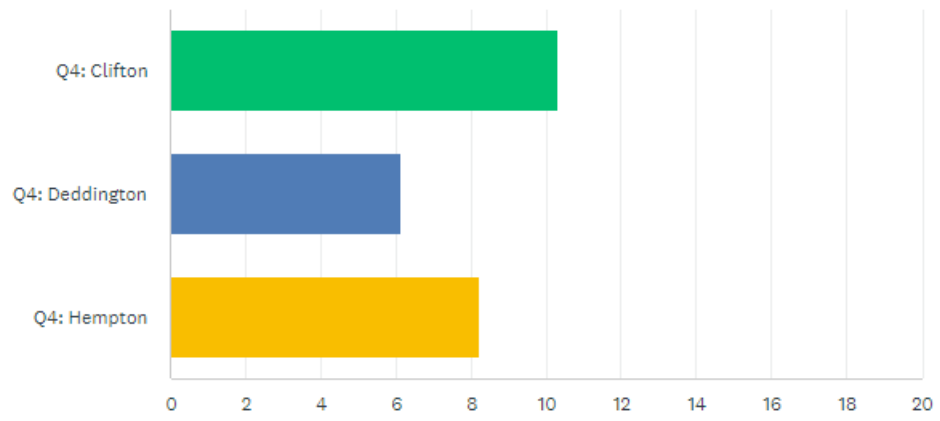

...

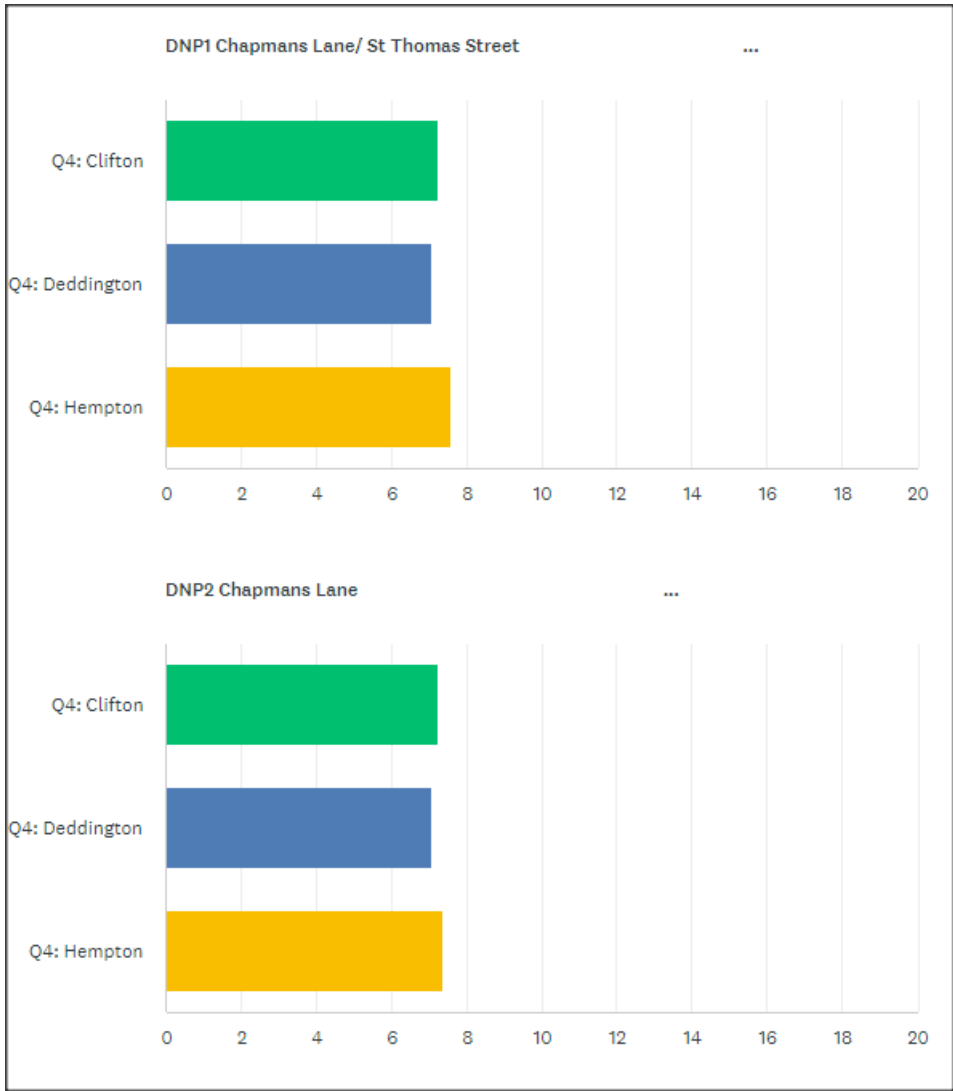

DNP4 The Poplars, Clifton Road, Deddington ...
